EDUCATION

Deogiri Institute Of Technology and Management Studies

Bachelor of Computer Applications (BCA) - 7.49

June 2021 - June 2024

Completed **Bachelor of Computer Applications (BCA)**, gaining a strong foundation in programming, software development, and computer science principles. Acquired skills in problem-solving, database management, and application development, preparing for a career in technology and innovation.

Shree Balaji Vidyalay

Higher Secondary Certificate (HSC)

June 2019 - June 2020

Completed **HSC** in the Science stream, with a focus on building a strong understanding of scientific concepts, critical thinking, and problem-solving skills. This provided a solid foundation for further studies in computer science and technology.

Mamta Secondary School

Secondary School Certificate (SSC)

June 2018 - June 2021

Successfully completed **SSC**, gaining essential knowledge in core subjects and developing discipline, time management, and foundational skills that set the stage for higher education and personal growth.

PROJECTS

Ecommerce Website

20 December 2024 - 1 January 2025

User Authentication :

Allows users to securely log in, create accounts, and manage their profiles.

Product Browsing :

Users can easily browse a wide range of products, view details, and explore different categories.

Shopping Cart :

Enables users to add products to their cart, view selected items, and adjust quantities.

Checkout Process :

Simple and efficient checkout flow for reviewing orders, entering shipping information, and confirming purchases.

Future Payment Gateway Integration :

A payment gateway will be added in the future to enable secure online payments for smoother transactions.

User Input :

Users can enter the name of a city to search for current weather conditions.

Weather Data Display :

Displays real-time weather information such as temperature, humidity, wind speed, and weather description.

API Integration :

Integrated a **Weather API** to retrieve accurate and up-to-date weather data for the searched location.

Responsive Design :

Designed the app to be mobile-friendly, ensuring it works seamlessly across devices.

SKILLS

HTML

- Proficient in creating structured, semantic, and accessible web pages.
- Skilled in using HTML5 elements, forms, and attributes for effective web design.

CSS

- Strong knowledge of styling web pages using CSS, including layout techniques like Flexbox and Grid.
- Experience with responsive design, media queries, and ensuring cross-browser compatibility.

JavaScript

- Proficient in writing dynamic, interactive web pages with JavaScript.
- Experienced with DOM manipulation, event handling, and asynchronous programming using Promises.

AngularJS

- Experience with AngularJS for building single-page applications (SPAs).
- Skilled in creating components, services, directives, and handling data binding in AngularJS applications.
- Familiar with dependency injection, routing, and using AngularJS for building dynamic, client-side web applications.
