ABOUT ME

Front-End Developer with hands-on experience in designing and developing responsive, dynamic web applications using HTML, CSS, JavaScript, and Angular. Skilled in creating engaging user interfaces, optimizing performance, and ensuring cross-browser compatibility. Passionate about delivering high-quality solutions while staying updated with the latest web technologies and best practices

SKILLS

Front-End Development	UI/UX & Styling	Frameworks	API & Backend	Tools
HTML5, CSS3 JavaScript(ES6+)	Tailwind CSS, Bootstrap	Angular	REST APIs, Fetch/Axios	VS Code Studio, Git / GitHub

PROJECTS

Ecommerce Website (Dec 2024 – Jan 2025)

Technologies Used: Angular, HTML, CSS, JavaScript, Firebase

Key Features:

- Implemented secure user authentication (sign-up, login, and profile management).
- Built a responsive product browsing system with category filtering.
- Designed and developed a dynamic shopping cart with add/remove functionality.
- Created a structured checkout process to improve user experience.
- Future integration of a payment gateway for seamless transactions.

Impact: Improved UI responsiveness, enhanced user engagement by 30%.

Weather App (Nov 2024 – Dec 2024)

Technologies Used: HTML, CSS, JavaScript, Weather API

Key Features:

- Integrated live weather API to fetch real-time data.
- Designed an interactive search bar for city-based weather searches.
- Ensured full mobile responsiveness using Flexbox & media queries.

Impact: Optimized API calls for faster data retrieval (under 1s response time).

CERTIFICATES

Angular Full Stack Developer

Spark Institute 2024
